Janet Feder is a Denver, Colorado based composer and guitarist. She is a classically trained guitar player best known for her work in the prepared guitar genre. After four critically acclaimed albums she now arrives fully and exquisitely realized in her most seminal work to date: **T H I S C L O S E**.

A genius guitar player with a lyrical heart, an instrumentalist with a compelling voice and a truly original offering, **Janet Feder** makes the seemingly disparate naturally coexist as she journeys ever more deeply into an aesthetic ideal all her own.

She cut her baby teeth on folk and rock guitar then polished them with a passion for classical playing. In the early 1990's Janet broke bad and began preparing her instruments; it's on the baritone guitar where she most clearly recognized the sound of her own voice.

Janet's sound is derived from the achievements of folk, jazz, pop, minimalism, classical, and the avant garde – and is simultaneously unmoored from the trappings of any of them.

While all six instrumentals and three vocal pieces on the album focus on different topics, overall there is a shadow, and deep within it lurks beauty, enlightenment and – especially in the songs – a profound and sometimes disarming honesty.

T H I S C L O S E is available now in high quality digital format, via Bandcamp (<https://janetfeder.bandcamp.com>) and will be available in 180 gram vinyl and Super Audio CD format later in the year.

*“Even though it sounds like me, it's something beyond...and it also feels like an arrival at the culmination of, well, everything that got me here. Previous albums felt like they happened in my head; **THISCLOSE** feels like it emerged from somewhere between my head and my heart. I've never made more intimate music. It's ok by me however it lands for my listeners. I played what I wanted to hear, because I could hear myself more clearly than I was ever able to in the past. And I played what I wanted to play because...I could. It was all part of accepting the invitation, this collaboration, this gift, with Mike and Joe.” [Janet Feder]*
